Projects

GitSearch
GitHub Profile
🌐 <https://maxdev-gitsrch.netlify.app/>

The project leverages the power of the GitHub API to provide users with an easy and efficient way to view GitHub profile information without having to navigate to the GitHub website. Design optimized for seamless compatibility across all devices. Leveraged the GitHub API to retrieve and display users' profile information

Technologies Used: ReactJS, Tailwind CSS, RestAPI

Currency Convert
Exchange Money
🌐 <https://maxdev-currency.netlify.app/>

Exchange App is a web application that allows users to exchange money and cryptocurrencies using exchange rates from the CoinMarketCap and CurrencyLayer APIs. Exchange money between different fiat currencies (ex: EUR to USD). Get up-to-date exchange rates from the CoinMarketCap and CurrencyLayer APIs. Craft a responsive design that delivers a seamless user experience on both desktop and mobile devices.

Technologies Used: ReactJS, Tailwind CSS, RestAPI

eBooks Shop
Online eCommerce

A virtual bookstore offering a seamless shopping experience for book lovers. To access the store's vast collection and make purchases, users must first create an account and log in with their unique credentials. Design optimized for seamless compatibility across all devices. Advanced book search platform enabling users to easily locate their desired books by applying various filters. A comprehensive admin panel that grants full control of the website to the administrator, including the ability to add new books or categories, manage registered users by accessing their account information and history purchases.

Technologies Used: HTML, CSS, Bootstrap5, PHP7, MySQL
